## SUMMARY

I have had experience here and there with coding for my Bsc and Msc in Physics. Initially it was through an introductory Java course, but later for my theses I used coding here and there. At the time I didn't see coding as the path for me even though I did enjoy it at the time. I have since moved more into coding and have taken a web development bootcamp with U of T and am now looking to start my career!

## TECHNICAL SKILLS

**Technical Languages:** Javascript, HTML, CSS, Python, Java, Perl

**Tools:** JQuery, Bootstrap Node.js, MySQL, MongoDB, Express, Apollo, handlebars, ReactJS, JWT

## PROJECTS

**Social Network** | <https://github.com/R3GAL0/Social-Network>

*A mongoDB api for tracking links between users and comments/thoughts*

- *This was a project completed by myself with no starting code.*
- *Uses: MongoDB, Mongoose, express*

**SAM's Restaurant Locator** | <https://github.com/R3GAL0/Project01>

*A web page for finding restaurants near a given address with other search parameters. Has been spun down via disabled google maps api key.*

- *I was responsible for the javascript portion of the project*
- *Uses: HTML, CSS, Javascript, JQuery, Bootstrap*

**Work Day Scheduler** | <https://github.com/R3GAL0/Work-day-scheduler> | <https://r3gal0.github.io/Work-day-scheduler/>

*A web page to write and save notes locally about tasks to do. The tasks are saved in local storage and retrieved on page reload.*

- *This was a project completed by myself with some template html code.*
- *Uses: HTML, CSS, Javascript, JQuery, Bootstrap*

## EXPERIENCE

**Assistant Manager**  
**Bonanza Gardens**

2012– 2023

Markham, Ont

I was in charge of helping organize the store layout before opening, assisting with daily product orders, closing the shop, supervision of employees (~6 subordinates), answering technical questions about the products, and other general tasks.

#### Key Accomplishments:

- I started working here at 16 years old and was able to show a good work ethic and drive sufficient to be promoted to assistant manager.
- Helped to devise new standard practices for ordering products.
- The store I worked at competed for the top 2-3 in sales in Ontario against over 20 other stores.

#### **Grocery Clerk**

2022– 2023

#### **No Frills**

Markham, Ont

*Responsible for stocking store shelves, assisting customers with locating products. My primary department is grocery, however I regularly assist with other departments such as: bakery, frozen, meat, and produce.*

#### Key Accomplishments:

- *After ~3 months on the job I started to receive more specialized tasks due to excelling beyond my initial tasks*

#### **Data Analyst**

2018

#### **University of Laurentian**

Sudbury, Ont

*A summer internship, where I was responsible for cleaning and basic processing of an information backlog of over 20 years. The information was collected from specialized counters and processed using inhouse programs for the University's physics department. It culminated in a final report of my analysis of the data.*

#### Key Accomplishments:

- *Upon completion of the internship the supervising professor took me on as his master's student.*

### **EDUCATION**

#### ***Full Stack Web Development Boot Camp Certificate: U of T, Online***

An intensive program focused on gaining technical programming skills in HTML, CSS, JavaScript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handelbars.js, ReactJS, and the MERN stack.

***Msc of Physics: Laurentian University, Sudbury, Ont. (currently enrolled part-time)***

***Bsc of Physics: Laurentian University, Sudbury, Ont.***
